BARGE SHIPMENTS OF GRAIN, SEASON TO DATE

MARKETS WEAKER

HIGHLIGHTS:

to rain and snowfall over large areas.

Wheat and feed grains moved to lower price levels across the nation during the holiday shortened week January 3. Markets had shown early week strength based on orderly farm selling and large prospective domestic and export demand. As world political problems intensified markets slid sharply lower. Slowed barge shipments on inland waterways and sharply lower inspections for export added weight to markets. Feed grain markets felt the impact of unseasonally mild temperatures and lack of snow cover which permitted grazing cro residues. Winter wheat conditions improved as moisture reserves showed a marked increase of

WHEAT:

Wheat markets fell under dual pressure of improved crop prospects as rain or snow fell over large areas and reduced interest in immediate shipments. Kansas City hard red ordinal protein wheat dropped 14 cents but this is still 11 cents over comparable market last year. Chicago soft red winter wheat dipped 13 cents lower which is 79 cents over year ago price. Minneapolis dark northern spring 14 protein wheat declined 13 cents, up 88 cents a bushel from last season. Portland soft white wheat fell 10 to 11 cents and this is 35-36 cents or year ago figures. Minneapolis rye held mostly unchanged as light offerings offset lack of buying interst.

CORN:

Yellow corn markets fell sharply under pressu of reduced export inspection, unseasonally mi temperatures which cut into feed usage and reduced processor buying interest. Chicago No. yellow corn dropped 9 cents, still up 36 cents a bushel from last season. Kansas City whit corn held unchanged in extremely slow trade. Millers awaited new business before acquiring additional stocks but farmers did not press sales.

OATS AND BARLEY:

Oats markets slid lower in thin trade. Mill demand remained fairly steady but feeding interest and export trade slowed. Chicago heavy oats fell 3 cents but this is 33 cents over last year. Minneapolis best malting barley held unchanged as brewery buying demand slowed seasonally but contry selling tapered off. Portland feed barley held steady in quiet trade Export interest turned dull and mild weather limited feed usage but tight farmer holding offset the negative factors.

SORGHUM:

Ample corn supplies at lower prices weakened sorghum markts. Kansas City No. 2 yellow sorghum went down 12 cents but remained 91 cents per hundred pounds over year ago price level. The Texas High Plains market dropped 5 cents.

OILSEEDS:

Soybean markets declined along with other grains. Slowed export loadings and lower prices for oil and meal depressed prices for cash beans. Lack of farm selling pressure tended to limit price decline. Chicago No. 1 yellow soybeans fell 6 cents and this is 45 cents per bushel under year ago market. Minneapolis flaxseed in a dormant market held. Crushing rate picked up but linseed meal buying interest was slow. Oil type sunflower seed market extremely quiet with no bids at Minneapolis. Duluth bid held steady.

WHEAT AND FEED GRAIN MARKETS WEAKER

HIGHLIGHTS:

Wheat and feed grain markets moved sharply lower across the nation during the week ended January 10. Market depressing factors were: Embargoes against shipment of around 17 million tons of grains to Russia, suspension of futures trade on the nations' three largest grain futures markets, weather turning unseasonally mild and general improvement in winter wheat conditions as additional moisture fell. Well regulated selling by farmers tended to add stability to markets toward the end of the period. Additional support came from news that China would buy wheat and feed grains and from various government programs designed to lessen the impact of the Russian grain embargo.

WHEAT:

Kansas City hard red winter, ordinary protein wheat traded 38 cents lower and this remains 58 cents over the comparable date last year. Chicago soft red winter wheat declined 31 cents, up 25 cents compared with last year. Steady mill buying tempered the market drop at Chicago. Minneapolis dark northern spring, 14 percent protein, wheat fell 18 cents, which is 61 cents higher than last season. Portland soft white wheat dropped 15 to 16 cents, but remains 13 cents over last year.

CORN:

Yellow corn markets fell under the same pressure that affected the wheat market. Chicago No. 2 yellow corn went down 32 cents per bushel for hopper car delivery, but is 2 cents over last season. Kansas City milling quality white corn dropped 10 cents, following the trend of other grains.

OATS AND BARLEY:

Oats market decline was softened by fairly steady mill buying interest. Chicago heavy oats went down 15 cents. The Minneapolis oat market fell 10 cents. Minneapolis best malting barley traded unchanged to 20 cents lower. Minneapolis feed grade barley declined 18 cents.

SORHGUM:

Trade was disrupted by the sharp drop in corn markets. Rail sorghum showed little inclination to trade and the few transactions reported were sharply lower. Kansas City multi-car sorghum bids fell 56 cents per hundred pounds. Texas High Plains and Los Angeles sorghum markets were not reported on Thursday due to lack of selling activity.

OILSEEDS:

Steady processing plant demand and fair crush margins limited the soybean price break. Chicago No. 1 yellow soybeans fell 25 cents and this is 81 cents under comparable market last year. Illinois processing plant prices dropped 14 to 17 cents per bushel. Minneapolis flaxseed declined 35 cents under last week. Duluth sunflower seed advanced 20 cents but \$3.55 under last season.

WHEAT AND FEED GRAIN MARKETS REBOUND

HIGHLIGHTS:

Wheat and feed grain markets rebounded across the nation during the week ended January 17.

Tight farmer holding, poor winter wheat prospects over much of the country, expanded grain sales to China and Mexico, and increased tension in the Middle East added strength during the period. Congestion at ports took the edge off the price advance and unseasonally mild temperatures and lack of snow cover reduced animal feed requirements over much of the country. Record corn and soybean 1979 crop production depressed buyers ideas on Wednesday.

WHEAT:

Wheat markets rebounded sharply as farmers held tightly to remaining stocks as winter wheat

prospects have declined due to lack of moisture early in the planting season which did not allow for germination and root development. Expanded flour mill buying and expanded export sales activity contributed strength. Kansas City hard red winter ordinary protein wheat traded 34 cents higher and this is 89 cents over comparable market last year. Chicago No. 2 soft red winter wheat rose 39 cents, up 67 cents compared with last year. Minneapolis dark northern spring 14 protein wheat advanced 31 cents up 88 cents over last season. Portland soft white wheat trade activity picked up and prices moved 34 cents higher.

CORN:

Yellow corn markets rebounded sharply in spite of record 1979 crop production. Expanded sale

to China Mainland and Mexico and tight holding at the farm level furnished the strength. Mi East tension and new record gold and silver markets contributed support. Chicago No. 2 yellow corn rose 27 cents and up 26 cents from last year. Kansas City white corn held unchanged in dull trade.

OATS AND BARLEY:

Good mill buying interest and tight supply moved oats markets sharply higher. Chicago

heavy oats ranged 11 cents higher. Minneapolis best malting barley held unchanged with demand slow most of the week but renewed buying interest at the close gave the market a firm undertone. Feed barley markets moved up following the cash corn market advance. Portland-Western barley closed 32 cents higher.

SORHGUM:

New export sales to Mexico and sharply higher cash corn markets firmed sorghum. Kansas City

No. 2 yellow sorghum went up 30 cents.

OILSEEDS:

Good crusher margin and tight holding at the farm level pushed oilseed markets higher in spite of record soybean 1979 crop production. Chicago No. 1 yellow soybeans rose 45 cents, but this is 44 cents per bushel under year ago prices. Illinois Processor plant prices advanced 30 to 32 cents. Minneapolis flaxseed went up 30 cents. Duluth sunflower seed rose 80 cents as export sales prompted buying for lake shipping in the spring.

WHEAT AND FEED GRAIN MARKETS MIXED

HIGHLIGHTS:

Wheat and feed grain markets moved in a mixed price trend across the nation during the week ending January 24. . General market support came from lessening of congestion at most export elevators and additional sales to Mainland China. Weakness stemmed from expansion of selling at the farm level in the upper Midwest and in the Pacific Northwest. Erratic gold and silver market movement was a deterrent to trade on Wednesday.

WHEAT:

Well managed hard winter wheat selling at the farm level coupled with good flour mill buying interest moved the Kansas City hard red winter wheat market 10 cents higher for ordinary protein. Chicago soft red winter wheat advanced 2 cents on strength derived from sales to China. Minneapolis dark northern spring wheat fell under pressure from expanded farm selling. Dark northern spring 14 protein wheat declined 16 cents but this is 70 cents above comparable date last year. Portland soft white wheat eased 1 cents lower under pressure of

Yellow corn markets slid lower as embargo at ports caused back up of supply into the Midwest producing areas. Chicago No. 2 yellow corn fell 3 cents. Mild temperatures and lack of snow cover limited feeder demand. Kansas City white corn moved up 10 cents. Expanded mill buying

Oats markets moved mixed. The Chicago market

OATS AND BARLEY:

interest finished the strength.

mixed, 3 cents lower to 2 cents higher.

slowed export buying and increased farm offerings.

fell 4 cents as buying interest was limited to Eastern markets. Minneapolis oats moved higher under expanded mill buying interest with closing prices steady to 2 cents higher. Minneapolis best malting barley closed unchanged after trading steady to 10 cents higher at mid week. Minneapolis feed barley declined 10 cents due to lack of storage space for current offerings. Portland Western barley closed

SORGHUM:

Yellow sorghum trade was extremely slow all week due to excess corn offerings and mild temperatures which limited feeder interest. Kansas City sorghum dropped 10 cents. Texas High Plains sorghum closed unchanged in dull trade.

OILSEEDS:

Soybean markets weakened under pressure of slowed export sales activity. Crusher demand

remained good and lack of excess farm offerings tempered the market drop. Chicago No. 1 yellow soybeans fell 14 cents. Illinois processor points soybeans fell 9-10 cents. Minneapolis flaxseed moved 25 cents higher with good crusher buying. The Minneapolis sunflower seed market was not active due to plants crushing flaxseed.

Grain Market News

AGRICULTURAL MARKETING SERVICE LIVESTOCK, POULTRY, GRAIN & SEED DIVISION UNITED STATES DEPARTMENT OF AGRICULTURE Volume No. 5 Washington, D.C. 20250

February 1, 1980

OILSEEDS STRONGER WHEAT AND FEED GRAINS MIXED

HIGHLIGHTS:

Oilseeds markets turned sharply higher across the nation during the week

ended January 31. Wheat and feed grain markets moved mixed. Markets strength came from announcement of most favored nation status for Mainland China, expanded export movement with clearing of some congestion at ports, expanded availability of rail cars and winter weather which expanded feed grain usage in the northern half of the nation. Winter wheat market showed weakness due to improved crop conditions as more rain and snow cover fell over most of the area.

WHEAT:

Winter wheat markets closed mostly lower due to improved crop conditions as rain and snow fell over much of the production area. Flour mill demand continued active as flour grind remained heavy. Kansas City No. 1 hard red winter ordinary protein fell 3 cents per bushel. Chicago soft red winter wheat advanced 7 cents as wheat shipments were not replaced by purchases pulling down stocks. Minneapolis dark northern spring wheat advanced sharply as flour mill demand met slow selling at the farm level. Dark northern spring 14 protein wheat closed up 9 cents. Medium milling quality hard amber durum ranged 2 cents higher. Portland soft white wheat

CORN:

Yellow corn markets made sharp price recovery as the grain reserve program

was opened to non-participating farmers and soft drink manufacturers announced intention to replace sugar and drinks by the use of corn syrup. Chicago No. 2 yellow corn went up 7 cents. Expanded mill demand raised white corn price up 10 cents.

OATS AND BARLEY:

traded 2 to 4 cents higher.

Oats markets moved mixed with good eastern demand but with slow movement

in western area. Chicago heavy oats advanced 3 cents. Minneapolis oats moved steady to 4 cents lower as demand slowed due to tight elevator space. Minneapolis best malting barley declined 5 to 10 cents due to farm selling in the face of tight storage space. Feed barley fell 16 cents at Minneapolis. Portland western barley moved 5-10 cents.

SORGHUM:

Advancing yellow corn markets expanded demand raising sorghum values. Kansas

2 yellow sorghum moved 8 cents higher. Texas High Plains market moved steady to up 5 cents in slow trade.

OILSEEDS:

Most oilseed markets moved sharply higher due to expanded export demand

and continued heavy processsor demand. Chicago No. 1 yellow soybeans went up 20 cents. Minneapolis flaxseed held unchanged. Sunflower seed crushers came back on the market and Duluth sunflower seed rose 20 cents.

WHEAT AND FEED GRAIN MARKETS MIXED

HIGHLIGHTS:

Wheat and feed grain markets moved in a mixed price trend across the nation

during the week ended February 7. Hard red winter wheat showed spot weakness as additional snow cover fell over most of the production area and there remained some impact from the recent cancellation of part of the Russian grain sales. Strength originated from reports that the USSR is actively buying replacement grains from other countries and that global wheat trade is projected at a record 78 million tons. Corn markets responded to renewed export buying interest and to reports that soft drink manufacturers would replace about half their sugar requirements with corn syrup.

WHEAT:

Markets closed mostly lower due to improving winter wheat crop prospects livery and new crop position wheat.

and expanded producer selling of immediate delivery and new crop position wheat. Farmer selling remains fairly well regulated with volume dropping sharply on price reversals. Kansas City hard red winter ordinary protein wheat fell 4 cents but this is 83 cents over comparable date last season. Chicago soft red winter wheat declined 15 cents. Minneapolis dark northern spring wheat 14 percent protein moved 2 cents lower and this is 7 cents above last season. Portland soft white wheat traded 2 to 3 cents higher with heavy export movement furnishing strength. Minneapolis No. 2 rye fell 5-8 cents as limited offerings met slow demand due to lack of storage.

CORN:

Markets moved higher under broad interest from exporters,

merchandizers, feed trade and processors. Chicago No. 2 yellow corn closed 5 cents higher up 28 cents from last year. Kansas City, milling quality, white corn rose 30 cents due to light farm offerings and sharply expanded mill buying interest.

(Notice: Statement issued in Volume 28, No. 5 on February 1 that the Grain Reserve Program was opened to non-participating farmers was in error.)

OATS AND BARLEY:

Oat markets finished mixed as mill demand had been slow most of the

period, but turned strong at the close. Chicago No. 2 heavy oats went up 2 cents. The Minneapolis oat market finished 2 cents lower to 8 cents higher. Barley markets were mostly unchanged in slow trade, but with renewed buying interest near the close of the period. Minneapolis best malting barley held steady, up 35 to 55 cents over last season. Portland feed barley moved unchanged and this is 80 cents over last year.

SORGHUM:

Sorghum traded mixed with higher priced corn furnishing strength in the

upper Midwest and to California feeders. Kansas City No. 2 yellow sorghum advanced ll cents per hundred pounds. The Texas High Plains market was steady to 5 cent lower all week. Current sorghum prices are 45-61 cents over last year at the comparable time.

OILSEEDS:

Soybean markets closed mostly higher as farm selling moderated and the oil

and meal price relationship supported the market direction. Chicago No. 1 yellow soybean moved 6 cents higher but this is 60 cents a bushel under year ago price level. Minneapolis flaxseed held steady with a limited crusher buying interest. Slowed sunflower seed crush depressed the Duluth sunflower seed market which dropped 20 cents to \$9.20 per hundred pounds, down \$3.45 from last season.

MARKETS MIXED

HIGHLIGHTS:

Wheat traded mostly lower, soybeans dropped sharply and feed grains moved

narrowly mixed. Rain and snow cover over the hard red winter wheat area coupled with sharply reduced inspections for export caused general wheat market downturns. Soybean markets fell under pressure of a large crop forecast for Brazil, and weakness for oil and meal which narrowed crush margins to the lowest point in recnet months. Feed grain markets found support in active export business and slightly expanded domestic usage.

WHEAT:

Wheat markets turned mostly lower on export inspections and improved

moisture conditions over hard red winter wheat areas. Kansas City hard red winter oridinary protein wheat declined 11 cents but is 80 cents over comparable date last season. Minneapolis dark northern spring 14 percent protein wheat dropped 14 cents but 63 cents over last year. Portland soft white wheat moved higher on good export movement and closed up 2 to 3 cents and 61 cents over year ago. Chicago soft red winter wheat fell 16 cents for the week, but was up 43 cents from last season.

CORN:

Yellow corn showed strength as export sales expanded and domestic usage for

processing and feeding picked up in the face of well regulated producer selling. Chicago No. 2 yellow corn closed the period down 1 cent but 26 cents above year ago. Kansas City white corn moved up 15 cents under strong milling interest and was 83 cents over last season.

OATS AND BARLEY:

Oats markets slipped lower as mill buying fell off. Chicago heavy oats

dropped 3 cents, up 19 cents from last year. Minneapolis best malting barley moved steady to up 10 cents as maltster interest continued active. Feed barley markets were mostly dull at generally unchanged price levels.

SORGHUM:

Sorghum traded generally higher as export interest remained strong

although Gulf export prices slipped lower. Kansas City yellow sorghum moved 8 cent higher and Texas High Plains market rose 10 cents per hundred pounds.

OILSEEDS:

dulled export trading of oil, meal and beans. points. Chicago No. 1 yellow soybeans traded 14 cents lower, down 91 cents from last season. Crusher margins declined to the narrowest point in recent months and Illinois processor prices fell 11 to 18 cents per bushel. Minneapolis flaxseed moved up 10 cents under good crusher demand. Sunflower seed received no nearby bids at Duluth or Minneapolis.

Forecast of a Brazil soybean corp of 4.3 million tons more than last year The domestic market fell at all

Grain Market News

PAGE

February 22, 1980

HIGHLIGHTS:

Soybean markets fell sharply across the nation for the week ended February 21. The downturn was influenced by the increased crop prospects in Brazil, the moderate domestic winter temperature and fewer cattle on feed. Wheat markets responded to tight farm holding and improved mill and export buying.

WHEAT:

Expanded mill and export buying in the face of tight producer holding pushed most wheat markets higher. Kansas City hard red winter wheat ordinary protein moved up 5 cents. Chicago soft white wheat was 1 cent lower. Portland soft white wheat advanced 5 cents with light offerings. Minneapolis dark northern spring

CORN:

Yellow corn markets declined under reduced export demand and slowed domestic needs. Chicago No. 2 yellow corn moved 2 cents lower. Kansas City milling

OATS AND BARLEY:

14 percent protein wheat traded up 7 cents.

quality white corn advanced 15 cents.

Oats markets declined with reduced milling and feed mixer demand. The Minneapolis market dropped 4 to 8 cents. Minneapolis best malting barley held steady, as tight storage space discouraged buying. Feed barley markets mostly

Expanded Brazilian soybean crop

SORGHUM:

weaker.

Sorghum interest continued good for feeder and export. Kansas City yellow sorghum in 3 car multi-units fell 4 cents per hundred pounds. Texas High Plains market closed unchanged after being steady to 5 cents lower all week.

OILSEEDS:

prospects weakened world soybean markets. Narrow crush margins pressured processing plants. Chicago No. 1 yellow soybeans fell 13 cents. Illinois processor point prices fell 11 to 15 cents. Minneapolis sunflower seed received no bids all week, but Duluth bid of \$9.00 was \$4.70 per hundred pounds under a year ago.

Grain Market News

AGRICULTURAL MARKETING SERVICE LIVESTOCK, POULTRY, GRAIN & SEED DIVISION UNITED STATES DEPARTMENT OF AGRICULTURE Volume 28 No. 9 Washington, D.C. 20250

PAGE

FEBRUARY 29, 1980

HIGHLIGHTS:

Wheat and feed grain markets moved in a mixed price trend across the nation during the week ended February 28. Domestic and export buying interest moderated, but tight farm holding limited price declines. Higher interest rates discouraged

ownership. Freight rate increases on grain shipments west of the Mississippi River

raised the cost of doing business.

WHEAT:

Wheat markets moved mixed. Light farm selling prompted flour mills to raise bids to obtain needed supplies. Kansas City hard red winter ordinary protein declined 8 cents. Chicago soft red winter fell 9 cents. Minneapolis dark northern spring 14 percent protein traded up 7 cents as tight farm holding prompted mills to raise bids. Portland soft white fell 6 to 9 cents.

CORN:

Yellow corn markets moved narrowly as congested ports limited export buying but processor demand continued at high levels and farm selling was light. Chicago U.S. No. 2 yellow corn advanced 1 cent per bushel, up 24 cents from last season. The Kansas City market was 2 cents lower. Kansas City milling quality white corn moved

OATS AND BARLEY:

25 cents higher.

Oats markets closed steady to higher with light buying interest. The Minneapolis market held unchanged at \$1.42-\$1.50. Minneapolis best malting barley moved mixed, steady to 5 cents higher. Portland Western barley closed steady to 2 cents lower.

SORGHUM:

Mild weather in the cattle feeding areas discouraged purchases and buyers lowered bids. Kansas City No. 2 yellow sorghum fell 3 cents but was 59 cents per hundred pounds over year ago. Texas High Plains market moved steady to 5 cents lower.

OILSEEDS:

Soybeans traded in a mixed price trend as world supplies and reduced domestic needs offset tight holding at the farm level. Chicago No. 2 yellow soybeans moved erratically all week and closed up 2 cents, 86 cents under year ago levels. Minneapolis flaxseed was 5 cents higher under good crusher demand. Duluth sunflower seed advanced 15 cents as traders expected an early resumption of lake shipping.

WHEAT AND FEED GRAINS CLOSE MIXED

HIGHLIGHTS:

Wheat and feed grain markets moved mixed across the nation during the week ended March 6. Major influencing market factors ranged from esculating money interest rates to government announcements affecting wheat and feed grain markets. Prime lending money rates esculated to record highs reaching 17 1/2 by the week's close with indications that rates could advance even more. Grain markets reacted sharply to government announcements of a no paid land diversion program this spring and Commodity Credit Corporation's offer to buy wheat in amounts equal to that suspended to the Soviet Union. A direct purchase program for corn was also announced. Mill demand for grains was generally good across the nation which offset the slowed export interest. Corn and sorghum planting began in Southern United States but new seedlings may have been partly damaged by a cold front which pushed temperatures below the freezing mark. The U.S. wheat crop continued to benefit from moisture and intermittent warm weather.

WHEAT:

At Kanasas City, lack of new export wheat business kept exporters on the sidelines and halted mill buying of all but higher protein wheat which is in tight supply. City ordinary protein wheat closed 3/4 cents lower, but this is 69 1/2 cents over comparable date last year. Chicago soft red winter advanced 12 cents as orderly producer marketing caused millers to advance prices to encourage farm selling. Minneapolis dark northern spring 14 advanced 6 cents. Portland soft white wheat fell 15-17 cents as tidewater congestion and slow ship arrivals pressed exporter buying needs.

CORN:

Corn prices were mixed across the nation. Chicago No. 2 yellow corn advanced 1 1/4 cents to 27 cents below last year's level. Steady processor demand was supportive. Kansas City milling quality white corn dropped 5 cents as merchandisers reduced prices when offers at last week's level were not absorbed.

OATS AND BARLEY:

Oats markets were also mixed with Chicago heavy oats declining 1 3/4 cents as stronger futures market caused an easing in buyer's interest. The Minneapolis oat market firmed 3-8 cents in wake of strong mill demand for limited spot offerings. Minneapolis best malting barley traded unchanged but is still 40-45 cents higher than last year. Minneapolis feed grade barley also unchanged.

SORGHUM:

Substantial demand continued at export channels furnishing strength to Kansas City sorghum, however, local demand remained quiet as most grain was diverted to stronger Gulf Ports and as domestic outlets switched to other cheaper feed sources. Kansas City multicar sorghum traded 2 cents higher per hundred pounds. Texas High Plains was unchanged to 10 cents lower.

OILSEEDS:

Cash soybean markets declined along with soybean oil and meal despite generally tight holding by producers. Crush margins remained generally weak causing reverse crushing action during the week. Chicago No. 1 yellow soybeans fell 5 3/4. Illinois processing plant prices dropped 1/2 - 3 1/2 cents per bushel. Minneapolis flaxseed declined 10 cents. Duluth sunflower seed was unchanged.

MARKETS WEAKER

HIGHLIGHTS:

Markets turned weaker for wheat and coarse grains across the nation during the week ended March 13. Higher interest rates discouraged ownership, new export wheat and flour business has been light so far this month, winter wheat generally has adequate moisture and crowded terminal elevators had little space available to store grain. Helping to limit the down trend was a favorable supply and disappearance report showing good usage, relief of congestion at most ports and good ship arrivals at Gulf ports. Pacific ports reported slow ship arrivals. Nearby spring weather tempered feeder demand and Brazil's aggressive export soybean competition limited demand for U.S. soybean, oil and meal.

WHEAT:

Wheat markets softened as adequate moisture was reported over most winter wheat areas and export wheat and flour business continued slow. Kansas City hard red winter wheat declined 14 cents for ordinary protein wheat, up 60 cents a bushel over comparable date last year. Scarce high protein wheat fell 12 cents. Chicago soft red winter wheat dropped 13 cents but this is 47 cents above year ago market. Minneapolis dark northern spring wheat fell 14-27 cents with 14 protein down 18 cents, up 57 cents from last season. Medium milling quality hard amber durum closed 5 cents lower to 5 cents higher. Portland soft white wheat moved 2-7 cents higher as scarce remaining supplies are expected to meet good potential movement.

CORN:

Yellow corn market declined due to nearby spring weather limiting feeder movement, large stocks on hand and lack of large new export business. Chicago No. 2 yellow corn fell 6 cents and this is 16 cents a bushel over year ago market. Kansas City white corn market turned dull as traders report little salable milling quality white corn available for sale. Rail car corn held unchanged per bushel, down 3 cents from last season.

OATS AND BARLEY:

grains and Chicago heavy oats moved 2 cents lower, up 21 cents from year ago. The Minneapolis market for feed oats held unchanged to 2 cents lower. Minneapolis best malting barley dropped 10 to 15 cents but this is 20-25 cents over last season. Portland barley is in short supply and exporters seeking grain to cover committments, bid the market up 4 cents, up 66 cents over year ago price.

Oats markets eased along with other feed

SORGHUM:

Lower cost corn forced sorghum markets lower in spite of fairly good export demand. Feeders switched to corn and little sorghum moved in domestic markets. Kansas City No. 2 yellow sorghum dropped 18 cents while the Texas High Plains market fell 10 cents. Current sorghum prices are 40-45 cents per hundred pounds above year ago.

OILSEEDS:

Brazil's aggressive export of new crop soybeans meal and oil reduced U.S. export trade for quick shipment and prices slid lower. Chicago No. 1 yellow soybeans declined 14 cents or 1.24 a bushel under comparable date last year. Minneapolis flaxseed held unchanged under good crusher demand. Duluth sunflower seed dropped 20 cents per hundred pounds and this is 4.05 below year ago market.

Grain Market News

AGRICULTURAL MARKETING SERVICE LIVESTOCK, POULTRY, GRAIN & SEED DIVISION UNITED STATES DEPARTMENT OF AGRICULTURE No. 12 Washington, D.C. 20250

March 21, 1980

PAGE

WHEAT MOSTLY LOWER FEED GRAINS MIXED

HIGHLIGHTS:

Wheat markets slid mostly lower across the nation during the week ended March 20. Improved world wheat crop prospects and higher carrying charges caused grain firms to

limit purchases to nearby positions. Feed grains showed a mixed trend as tight holding at the farm level offset slowed feed usage. Nearby lake and barge season relieved some pressure on tight shipping conditions.

WHEAT:

Improved winter wheat condition in the U.S. and better world wheat crop prospects coupled with higher interest rates depressed buyers ideas. Kansas City hard red winter wheat ordinary protein fell 7 cents. Chicago No. 1 soft red winter wheat declined 8 cents. Minneapolis dark northern spring wheat eased 2-3 cents lower for 14 percent protein. Portland soft white wheat traded 1 cent higher, up 40 cents from last season. Minneapolis rye moved steady to 2 cents lower under pressure of heavier farm

CORN:

offerings.

Yellow corn markets moved mixed as mild temperatures limited domestic feed needs.

Export movement against prior sales continued heavy. Chicago No. 2 yellow corn closed steady but the Minneapolis market fell 3-4 cents per bushel. Kansas City milling quality white corn traded 25 cents higher.

OATS AND BARLEY:

Oats markets were generally dull and prices showed little movement. The Minneapolis

market eased 3-4 cents lower. Minneapolis best malting barley closed steady to 5 cents lower. Minneapolis feed barley dropped 10 cents. Portland western barley went down 10 cents.

OILSEEDS:

Heavy soybean crush and light farm selling failed to maintain soybean prices. Nearby

export demand was well covered by previous purchases. Chicago No. 1 yellow soybeans fell 6 cents. Sunflower seed failed to trade in nearby positions at Minneapolis or Duluth.

1/The quantity of grain inspected in the U.S. for shipment to Canada is reduced by the amount of U.S. Grain exported from St. LAWR SWY as reported by the Canadian Grain Commission. It is assumed this residual amount of grain is held in Canada for later export or consumption.

NOTE: Yellow corn includes mixed corn.

TOTAL INCLUDES 285 RYE SHIPPED FROM STOCKS STORED IN CANADA TOTAL INCLUDES 905 BARLEY SHIPPED FROM STOCKS STORED IN CANADA

WHEAT AND FEED GRAIN MARKETS WEAKER

HIGHLIGHTS:

Wheat and feed grains weakened across the nation during the week ended March 27. The market lost momentum and fell lower under pressure of slowed export demand, precious metals weakness, and high interest rates. Moderate country selling met tight storage space and lack of buying interest in nearby positions. Vessel line-up at ports helped to move previous commitments, but new export sales activity was light and confined mostly to forward positions.

WHEAT:

Limited demand from all segments of the trade offset light farm selling and wheat markets fell as additional moisture improved winter wheat crop prospects. Kansas City hard red winter wheat fell 15 cents, but this remains 36 cents per bushel over last season. Chicago soft red winter wheat dropped 8 cents, up 44 cents from comparable date last year. Minneapolis dark northern spring wheat declined 12 cents for 14 percent protein wheat, up 41 cents from last season. Rye unchanged to 5 cents lower under pressure of heavy farm offerings. Portland soft white wheat closed unchanged and supported by good export loadings and forward sales activity.

CORN: Yellow corn markets declined 6-12 cents per bushel as large stocks, tight storage, and high cost of carrying grain depressed prices in the face of reduced export and domestic sales. Chicago No. 2 yellow corn closed 10 cents lower and this is 2 cents lower than year ago price for hopper car delivery. Kansas City milling quality white corn moved 7 cents higher as extremely light supplies and offerings met good demand.

OATS AND BARLEY:

Oat markets eased lower under pressure of light buying interest. The Minneapolis market fell 2 cents, and this is 6-9 cents below year ago price level. Minneapolis best malting barley declined 5 cents as malster demand was light. Minneapolis feed barley rose 15 cents as barges and ships were scheduled to arrive late this week. Portland feed barley held unchanged in quite trade.

SORGHUM:

Sorghum markets followed yellow corn down as feeders concentrated on the more favorably priced corn, and sorghum found the best outlet at the Gulf for export. Kansas City sorghum closed 18 cents lower. Texas High Plains market fell 5-10 cents.

OILSEEDS:

Slowed crusher demand coupled with limited export markets for beans, oil, and meal forced soybean prices lower. Chicago No. 1 yellow soybeans moved 26 cents lower and this is 1.80 below year ago price level. Minneapolis flaxseed fell 25 cents to \$6.25, as crushers withdrew from the market. Sunflower seed showed no trade activity for quick shipment and forward bids ranged 10--15 cents per hundred pounds lower than last week.

Grain Market News

April 4, 1980

SOYBEANS WEAKEN-COARSE GRAIN AND WHEAT STRONGER

HIGHLIGHTS:

Coarse grains and most wheat markets offset early week downtrends to post modest gains across the nation for the week ended April 3. Government buying by the CCC, farm selling, and improved domestic and export buying, gave a boost to wheat futures near the week's close. Higher prime interest rates made inventory holding very costly. Rainy weather slowed corn and spring wheat planting. Recent heavy snow and rain in the south west wheat belt added substantial subsoil moisture and improved the prospects for the 1980 wheat crop.

WHEAT:

Hard red winter wheat moved moderately higher as export buying expanded and mills needed supplies to replace stocks. Farmer selling remained generally light. At Kansas City, ordinary protein wheat closed 6 1/4 cents higher. Chicago soft red winter advanced 1 cent. Minneapolis dark northern spring 14 percent protein gained 1 1/4 cents. Portland soft white wheat recovered from mid-week lows to close unchanged.

CORN:

Yellow corn markets moved sharply higher as export and processor buying expanded. Chicago No. 2 yellow corn advanced 12 1/4 cents. Kansas City milling quality white corn firmed 5 cents as demand strengthened for the extremely light offerings.

Improved buying demand for tight sorghum

OATS AND BARLEY:

Oats markets firmed across the nation, but barley markets closed mixed. The Minneapolis oat market was unchanged to 2 cents higher. Minneapolis best malting barley traded unchanged to 15 cents higher, with expanded export business adding strength. Minneapolis feed barley recovered from the mid-week losses closing 5 cents higher.

SORGHUM:

offerings strengthened the market. Kansas City multi-car traded 15 cents higher. Texas High Plains was 5 cents higher.

OILSEEDS:

Yellow soybean markets declined as increased export competition in world markets and supplies weighed upon prices. Crush margins remained generally weak. Chicago No. 1 yellow soybeans fell 7 1/4 cents despite regular processor buying interest. Illinois processing plant prices dropped 6 1/2 - 10 cents. Minneapolis flaxseed dropped 30 cents to \$5.95 as crushers withdrew from the market. Duluth sunflower market was weak with no spot price quoted.

WHEAT AND FEED GRAINS STRENGTHEN

HIGHLIGHTS:

Despite sharp declines at the weeks close, wheat and feed grains closed higher across the nation for the week ended April 10. Purchasing programs by the Commodity Credit Corporation (CCC) directly from the farmer supported the wheat market most of the week. Moderate export demand along with government buying of corn offered strength to corn prices. Decline of the U.S. dollar overseas stimulated foreign buying interest for soybean products. Crusher buying continued heavy and farm offerings were light all week.

WHEAT:

Hard red winter wheat advanced sharply during the mid-week in response to the Government purchasing program. At the close of the week, however, the stimulas offered by the CCC's buying faded, and lack of commercial support and profit taking forced the market to give up most of its gains. Kansas City hard red winter wheat gained 7 cents. This is 46 cents per bushel over last season. Chicago soft red winter wheat advanced 9 cents, and this is 56 cents over a year ago level. Minneapolis dark northern spring 14% gained 13 1/2 cents. Portland soft white wheat fell I cent per bushel as light export interest weakened prices. The price, however, represents a 42 cent premium over last year.

CORN:

Yellow corn strengthened, a result of government buying and good export, feed, and processing demand for corn supplies. Chicago No. 2 yellow corn advanced 1 3/4 cents, but is 7 - 13 cents below from last years level. Kansas City milling quality white corn traded 10 cents higher, as extremely light offerings met with good processing demand. Current price is \$1.97 above last year price.

OATS AND BARLEY:

Oats markets traded mixed. Weaker local demand pushed Chicago heavy oats 1/4 cent lower, but 20 cents above the previous seasons level. Also in light demand, the Minneapolis market closed 2 cents higher. Minneapolis best malting barley was unchanged. Minneapolis feed barley advanced 2 cents with good export demand offering strength. Portland feed barley advanced 14 cents.

SORGHUM:

Sorghum markets closed mixed. Kansas City turned extremely slow as most interest was for yellow corn. Sorghum found the best outlet at Gulf for export. Kansas City yellow sorghum lost 6 cents per hundred pounds. Texas High Plains advanced 5 - 15 cents per hundred weight.

OILSEEDS:

Soybean prices turned higher as export business for soybeans, oil, and meal showed improvement when the U.S. dollar eased in overseas markets. Domestic crush demand also remained very active. Producer selling of supplies was very light. Chicago No. 1 yellow soybeans moved 9 cents higher but staying \$1.44 lower than last year. Illinois processor plant prices advanced 10 - 15 cents. Reflecting limited crush demand, Minneapolis flaxseed held steady. Duluth oil type sunflower seeds closed the week at \$8.55.

AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory lists 37 services in 24 states that are currently in operation.

April 18, 1980

WHEAT SHARPLY LOWER -- FEED GRAIN MIXED

HIGHLIGHTS:

Wheat traded sharply lower across the nation during the week ended April 17. The Commodity Credit Corporation (CCC) wheat purchase was quickly completed and favorable new crop prospects weighed against values. Yellow corn traded mostly lower in the face of a sizeable carryover and a slight increase in planting intentions. Oats traded firmer with stocks very light and tightly held. Barley markets closed mixed. Soybean markets responded to government support, good processor crush level, and continued export competition for light farm offerings. World crop conditions indicated short moisture in Mexico, Australia, and parts of India and Europe. United States, Russia, and South America generally had adequate moisture.

WHEAT:

Wheat markets fell as the government purchase program was quicky completed and new crop prospects continue generally favorable. Export movement from Gulf ports was delayed by heavy rain and flooding at some ports. River and lake shipments picked up. Kansas City hard red winter wheat ordinary protein fell 18 cents. This is 32 cents a bushel higher than on the comparable date last season. Chicago soft red winter wheat fell 28 cents, up 27 cents over last season. Minneapolis dark northern spring 14 percent protein closed 10 cents lower. Portland soft white wheat dipped 10 cents lower.

CORN:

Yellow corn traded mixed in the face of heavy carryover stocks and slight increase in planting intentions. Processor demand remained steady and farm selling was orderly. Chicago No. 2 yellow corn finished 4 cents lower for hopper cars, and up 5 cents from year ago price. The Minneapolis market finished unchanged to up 1 cent due to pick up in lake and river shipments. Kansas City white corn moved sharply higher as extremely tight supplies prompted higher bids.

OATS AND BARLEY: Scarce oats supply was tightly held and the market moved higher. Minneapolis best malting barley ranged steady to up 5 cents. Feed barley ranged 17 cents lower at Minneapolis, unchanged at Stockton, and down 2 cents at Portland.

SORGHUM: Sorghum moved mixed as corn displaced sorghum for feed use in the mid-west, but Texas and California markets responded to planting delays in all areas other than Texas. Kansas City yellow sorghum moved 10 cents lower in extremely dull demand. Texas High Plains market closed mixed, down 5 cents.

OILSEEDS:

Oilseed markets closed mixed as the government program to reduce the Russian embargo provided some support and farm selling of soybeans was orderly. Processors continued heavy crush and the long term demand for soybean meal was considered good. Chicago No. 1 yellow soybeans closed up 1 cent. Illinois processor points soybean price finished about steady. Minneapolis flaxseed traded 5 cents lower. Duluth sunflower seed ranged 15 cents higher.

April 25, 1980

GRAIN MARKETS MOSTLY STRONGER

HIGHLIGHTS:

During the week, grain prices traded in wide price swings across the nation before posting gains for the week ended April 24. Buying demand showed a slight pick up with producer selling nearly non-existant since farmers were actively involved with field preparations for new crop plantings. New crop spring plantings generally lagged last years completed progress as well as the average planting progress for this time of the year. U.S. winter wheat crop rated fair to mostly good through the major production states. Principal European wheat growing areas received moderate to heavy amounts of rainfall during the week as did the U.S.S.R., Mainland China, and most importantly, Australia which had been suffering from near drought conditions.

WHEAT:

Well managed hard red winter wheat selling at the farm level coupled with fair flour mill and export demand to move Kansas City ordinary protein wheat 8 cents higher. Chicago soft red winter wheat advanced 9 cents. Minneapolis dark northern spring 14% protein wheat gained 20 cents. Light export demand and adequate movement from farms were weakening white wheat price influences and white wheat at Portland dropped 2 cents.

CORN:

Steady but light processor and merchandiser demand countered the limited farm selling to hold Chicago corn prices steady. Chicago No. 2 yellow corn closed unchanged for hopper cars. Kansas City white corn prices moved sharply higher due to extremely tight supply, light offerings, and good milling demand.

OATS AND BARLEY:

Good buying demand from eastern states supported the oats markets. Minneapolis oats closed 10 cents higher with very good quality oats bringing a substantial premium. With improving malster demand, Minneapolis best malting barley was unchanged - 15 cents higher. Minneapolis feed barley held steady while Portland feed barley advanced 2 cents.

SORHGUM:

Sorghum trade was dull all week as most interest was shown for yellow corn supplies.

Kansas City yellow sorghum eased 1 cent lower. Texas High Plains sorghum was steady to 10 cents higher.

OILSEEDS:

sunflower seed were also steady.

Adequate export interest and good crusher demand upheld soybean prices as country offerings continued light and on-hand supplies tightened. Chicago No. 1 yellow soybeans moved 7 cents higher. Illinois processor plant prices closed 2-4 cents higher. Minneapolis flaxseed remained unchanged in dull trade. Duluth oil type

UNITED STATES DEPARTMENT OF AGRICULTURE
Volume 28 No. 18 Washington

May 2, 1980

CASH GRAIN PRICES CLOSED MIXED

HIGHLIGHTS:

across the nation for the trading week ended May 1. Prices seesawed throughout the week in response to heavy delivery intentions against May futures contracts, announcements that the Soviet Union will be allowed to buy 8 million metric tons of grain for the upcoming marketing year, and reports that the USDA will begin a series of offers to sell contract rights for the port delivery of 13 million metric tons of wheat and corn assumed after the restriction of shipments to the Soviet Union. Dry weather across the northern U.S. has allowed planting to progress rapidly, but germination could be delayed. Weather remained favorable in the midwest, and corn planting progressed rapidly.

WHEAT:

Wheat markets traded mixed at major markets. Kansas City ordinary protein hard red winter wheat closed the week 2 cents higher. Chicago soft red wheat declined 10 cents. Minneapolis dark northern 14% protein spring wheat advanced 4 cents. Portland soft white wheat fell sharply because of refusals to load vessels believed destined for Iran and finished 22 cents lower.

Hopper car yellow corn prices moved 5 cents CORN: higher at Chicago. Lack of farm offerings and agressive processor and merchandiser demand caused advances in hopes of encourage farm selling. Kansas City white corn prices closed unchanged at \$5.50 per bushel.

Minneapolis oats finished unchanged to 2 OATS AND BARLEY: cents lower. Concern over extremely dry weather pushed malster barley 5-10 cents higher at Minneapolis while feed barley recovered from earlier losses to close 5 cents higher. Portland feed barley finished 2 cents lower.

SORGHUM:

Kansas City yellow sorghum eased 1 cent lower per hundred weight. Texas High Plains

Cash grain prices closed in a mixed trend

sorghum advanced 10-15 cents.

OILSEEDS:

The soybean market moved lower as slowed export offset the good crush interest and light farm selling. Chicago No. 1 soybeans moved 5 cent lower. Illinois processor plant prices closed 1 cent lower. Minneapolis flaxseed advanced 20 cents to \$6.10 as crushers reentered the market. Competition for supplies caused

TABLE OF CONTENTS

Duluth oil type sunflower seed to advance 20 cents.

WEATHER CONCERNS PUSH WHEAT AND FEED GRAINS HIGHER

HIGHLIGHTS:

Wheat and feed grain markets soared sharply higher across the nation as weather concerns in the U.S. and abroad moved grain futures markets higher during the week ended May 8. Dry weather in the Northern Plains and Canada persisted with no relief near in sight. Heavy rains in China and USSR contributed additional strength as flooding problems are reported in the Far East, and excessive moisture in USSR is slowing field planting and hindering pasture growth and winter grain development. The CCC began offering contract rights for port delivery of wheat and corn embargoed to the USSR. Offers will be made on a twice weekly basis. Offers for corn will be made on Mondays and Wednesdays and wheat offers on Tuesdays and Thursdays.

WHEAT:

Wheat markets reacted strongly to weather concerns here and abroad. Grain futures posted wide advances with cash markets closely following. Farmer selling expanded near Gulf locations but remained extremely light in the major spring wheat growing areas. Kansas City ordinary protein hard red winter wheat closed 27 cents higher. Chicago soft red wheat gained 38 cents. Minneapolis dark northern 14 protein spring wheat advanced 22 cents. Portland soft white wheat closed 17 cents higher.

CORN:

Yellow corn prices firmed as lack of producer selling caused a scurry to cover commitments. Spring planting made rapid progress but the dry weather is now causing concern over lack of moisture to germinate seeds. Chicago No. 2 yellow corn in hopper cars closed 10 cents higher. Kansas City milling quality white corn posted a 20 cent gain over last week but the market gave up 10 cents of its earlier gains. White corn is currently \$2.87 above last years market price.

OATS AND BARLEY:

Demand for good quality cash oats and lack of moisture in the upper midwest supported Chicago oat prices. Minneapolis oats finished mixed. Minnepolis malster barley held steady. Feed barley fell 5 cents. Portland barley advanced 5 cents. Tight supplies and higher competitive feed grain prices were supportive to barley markets.

SORGHUM: Sorghum trade was rather slow with interest focused mainly around export outlets. At some locations, domestic demand was out priced as export needs priced sorghum out of domestic competition. Kansas City yellow sorghum gained 36 cents. Texas High Plains sorhgum gained 5-10 cents.

OILSEEDS:

Soybean markets closed sharply higher. Light farmer selling caused a pick up in buying demand to cover commitments. Chicago No.1 yellow soybeans closed 24 cents higher. Illinois Processor plant prices advanced 29-31 cents. Minneapolis flaxseed held steady. Crusher demand was good. Competition for supplies caused Duluth oil type sunflower seed to advance 30 cents.

. May 16, 1980

WHEAT WEAK-FEEDGRAINS MIXED

HIGHLIGHTS:

Weather market attitudes influenced major grain markets across the nation during the week ended May 15. Early downward price pressure was felt because of the record USDA winter wheat crop production report based on conditions as of May 1. report indicated a record crop of 1.7 billion bushels or 9 percent above the last estimate and 6 percent above last years production. Market showed gradual recovery the rest of the week as dry weather concerns erased some of the loss. Rainfall was received in the midwest over the weekend but was not in sufficient amounts to replenish dry top soil conditions. Planting of spring wheat and other grains has been halted until adequate moisture is received to insure germination. News from Europe indicates weather problems throughout major grain producing Grain selling from farmers expanded over the weekend but quickly shut off when prices dropped.

WHEAT:

Wheat prices closed lower during the week as record USDA production report put downward pressure on prices. Markets made gradual recovery as dry weather concerns sparked speculative trade and erased some of the loss. Kansas City hard red winter ordinary wheat closed 7 cents lower. Chicago soft red wheat moved 7 cents lower. Minneapolis dark northern spring 14% closed 2 cents lower. Portland soft white wheat was I cent lower.

CORN:

Chicago yellow corn prices fell at the beginning of the week as scattered showers over the weekend pushed futures lower. Processor and merchandiser interest erased some of the loss during the week. Kansas City milling quality white corn trade was listless and bids held steady.

OATS AND BARLEY:

Oats demand was less aggressive, but concern over the need for additional moisture kept prices on the firm side. Minneapolis malster barley closed mixed. Feed barley closed uneven in a soft market. Portland feed barley advanced 5 cents.

SORGHUM: Sorghum trade was slow at Kansas City. Prices fell 6 cents. Light showers fell in coastal areas in Texas which should improved overall crop conditions and came just in time to aid crops before moisture stress caused heavy damage. Texas High Plains sorghum closed steady to 10 cents higher.

OILSEEDS:

Scattered rainfall over the weekend pushed futures markets sharply lower and many elevators took buying protection because of moderate to heavy selling of soybeans throughout the soybean belt area. Carryover of wheat pressuring influences also a weakening factor. Soybean planting expanded across the midwest. Chicago 1 yellow soybeans closed 1 cent lower, while Illinois Processor points prices fell 5-6 cents. Minneapolis flaxseed advanced 5 cents with strong crusher interest firming the market. Duluth oil type sunflower seeds closed 20 cents higher.

May 23, 1980

OILSEEDS STRONGER-WHEAT AND FEEDGRAINS MIXED

HIGHLIGHTS:

Weather factors continued to influence grain markets across the nation during the week ended May 22. Dry weather conditions in the upper midwest dominated trade decisions. Scattered showers offered temporary relief but hot weather quickly evaporated excess moisture and the area remained extremely dry. Eruption of Mt. St. Helens in Washington caused heavy silt build up and resulted in the closing of the Columbia River to all vessels. Truck and rail transporation was also halted, and traders are unsure of the total impact that it will cause. Farmer selling remained at relatively light levels as many returned to field work. Harvest of new crop wheat began in the southern United States but lags behind last year's progress. A new barley reserve program announced May 22, contributed support to most barley markets.

WHEAT:

Wheat markets closed mostly lower reflecting sharp declines in the beginning of the week due to scattered rainfall, but markets made gradual recovery as conditions remained extremely dry and concerns over heavy volcanic ash build up in the northwest contributed support. Minneapolis dark northern spring 14 percent, the exception, gained 12 cents. Drought conditions in the spring wheat belt offered strength. Kansas City hard red winter wheat closed 3 cents lower. Chicago soft red wheat closed 16 cents lower. Portland soft white wheat closed 1-4 cents

CORN:

Yellow corn prices dipped lower early in the week as scattered showers in the midwest lowered buyers ideas. Despite the rain, conditions remained dry, producer selling remained at light levels and steady processor demand erased some of the losses. Chicago yellow corn in hopper cars closed I cent lower. Milling quality white corn closed 10 cents higher as farmers continued to hold supplies tightly and merchandisers increased their bids.

OATS AND BARLEY:

Dry weather conditions caused concern over status of new crop plantings and oats futures strengthened. Minneapolis oats closed 7-9 cents higher. Barley markets firmed following the announcement of a new barley farmer-held grain reserve program. Under the new program, 43 million bushels of the 1978-79 crop under CCC loan would be placed into the reserve immediately. Barley from the 1980 crop will be eligible for entry in the reserve at harvest. Minneapolis feed barley advanced 8 cents. Portland feed barley was steady. Minneapolis malting barley was steady to 20 cents higher.

SORGHUM: Sorghum markets were mixed. Kansas City sorghum held steady in light trade. Merchandisers advanced buying basis as farm movement was light. Texas High Plains was steady to 10 cents higher. Soil moisture is more than adequate and producers now need open weather to begin harvesting.

Soybean markets turned stronger at Chicago, OILSEEDS: closing 4 cents higher. Processor demand was steady but not aggressive. Illinois points processor prices closed 2-4 cents higher. Minneapolis flaxseed ranged 20 cents higher. Crusher demand remained strong. Duluth No. 1 oil type sunflower seeds moved 45 cents higher.

Grain Market News

May 30, 1980

MARKETS MOVED LOWER

Wheat and feed grain marekts turned mostly HIGHLIGHTS: weaker across the nation for the shortened trade week ended May 29. Market weakening influence was weather related. Rainfall fell across wide areas of the dry mid and northern United States, and forecasts of additional rainfall reversed speculative support and prices dropped. Decline in prime money rates was encouraging to the industry but expansion of inventories beyond immediate needs still has met resistance. Wheat harvest made some progress in southern states, but rain has caused delays and is currently behind the harvested average for this time. Corn, soybean, and spring wheat plantings made good progress and is ahead of the normal planted average.

Wheat markets turned mostly weaker across WHEAT: the nation as rainfall and forecasts for additional moisture removed speculative price supports and prices dropped. Ordinary protein wheat at Kansas City closed 10 cents lower. Chicago soft red wheat fell 18 cents. Wheat harvest began in far southern states but with major harvesting activity still about 3 weeks away. Minneapolis dark northern spring wheat closed 28 cents lower. Portland soft white wheat, the exception, closed 2-3 cents higher. The Columbia River has been opened to vessels with a 25 foot or less draft. Cash grain movement from first hand was also limited.

Receipt of rainfall across the Corn Belt States furnished weakness to prices and countered the light country movement. Buying demand was steady for the available offers. Yellow corn at Chicago closed 2 cents lower. Kansas City milling quality white corn closed uneven in light trade activity. White corn supplies are limited and are tightly held.

OATS AND BARLEY:

Improved moisture conditions in oat growing areas contributed downward pressure to cash and futures markets and offset the steady eastern demand. Concerns over status of new crop plantings somewhat eased. Minneapolis heavy oats closed 3-7 cents Minneapolis best malting barley advanced 10 cents while feed barley closed 8 cents lower. Portland feed barley advanced 4 cents.

Sorghum prices at Kansas City fell 2 cents SORGHUM: per hundred pounds. Demand showed some improvement, however offerings remained thin. Texas High Plains market was 5 cents stronger.

OILSEEDS:

across the Soybean Belt and good status of new crop plantings triggered pick-up in producer selling and pushed cash markets lower. Elevator basis trimmed as supplies became available. Chicago yellow soybeans fell 9 cents. Illinois Points Processor bids were 12-14 cents lower. Minneapolis flaxseed closed 15 cents higher. Duluth oil type sunflower seeds moved 55 cents lower as new crop prospects look good and country selling expanded.

Combination of improved moisture conditions

AGRICULTURAL MARKETING SERVICE LIVESTOCK, POULTRY, GRAIN & SEED DIVISION UNITED STATES DEPARTMENT OF AGRICULTURE Volume 28 No. 23 Washington, D.C. 20250

June 6, 1980

HIGHLIGHTS:

For the week ended June 5, wheat futures posted declines at major exchanges refecting concerns over conditions in the Northern Great Plains. Even though rainfall was helpful to the wheat crop, earlier drought conditions could result in yield losses and uneven stands. Rainfall in southern states slowed harvest progress and supported cash wheat prices. Farm selling was light and mills bid aggressively to meet nearby requirements. Yellow corn traded in narrow ranges during the week. Rainfall be Yellow corn traded in narrow ranges during the week. Rainfall has been beneficial to some corn and soybean areas, while in others, rain caused heavy soil erosion and will require some acreage replanting. Soybean prices posted declines as new crop prospects were good and carry-over stock expected to be large.

WHEAT:

Kansas City wheat closed 1 cent higher. Chicago soft red winter closed 4 cents lower. Prospects of a record soft wheat crop . was a weakening influence. Minneapolis dark northern spring wheat gave up earlier gains and closed uneven as rainfall eased drought concerns. 14% dark northern spring wheat closed steady. Portland soft white wheat closed steady to 2 cents lower. The Columbia river has been dredged to allow ships to pass with a 33 foot draft.

Wheat markets were mixed across the nation.

CORN:

Chicago cash yellow corn markets weakened as crop prospects improved and producer selling added pressure. Demand by elevators and processors was easier. Chicago No. 2 yellow corn hopper cars were 3 cents lower per bushel. Kansas City milling quality white corn closed uneven in dull activity.

OATS AND BARLEY:

Minneapolis heavy oats posted declines ranging 2 to 6 cents. Mill demand was limited, but export interest showed marked improvement. Minneapolis malting barley was mixed closing up 10 cents to down 10 cents. Expectations for poor yields and poor quality for 1980 crop are market factors. Minneapolis feed barley closed 10 cents lower reflecting lack of export interest. Portland feed barley held steady.

SORHGUM:

Domestic sorghum trade at Kansas City was untested and prices fell 1 cent. Main Texas High Plains market was uneven to 5 activity was focused for Gulf deliveries. cents stronger per hundred weight.

OILSEEDS:

Chicago No. 1 yellow soybeans gave up 7 cents per bushel. Illinois processor bids were 6-7 cents lower. Minneapolis flaxseed was uneven at \$6.50. Steady crusher demand upheld prices. Duluth No. 1 oil type sunflower seeds also uneven at \$9.30 per hundred pounds.

WHEAT AND FEED GRAINS MOSTLY HIGHER

HIGHLIGHTS:

Wheat and feed grains traded at mostly higher price levels across the nation during the week ended June 12. In spite of the 1.757 billion bushel wheat crop forecast, orderly farm marketing and continued good export demand and domestic flour grind kept the market firm. Less than ideal growing conditions in the Russian wheat area contributed strength. Feed grain markets were supported by orderly marketing and weather delayed planting and harvest of wheat and feed grains.

WHEAT:

The large wheat crop forecast failed to move prices lower in the face of the Russian crop outlook, orderly farm marketing, and good domestic and export interest. Kansas City hard red winter wheat ordinary protein closed up 1 1/4 cents. Chicago soft red winter wheat advanced 15 1/2 cents. Portland soft white wheat declined 4 cents.

CORN:

Yellow corn markets responded to flooding in newly planted areas and ranged higher. Chicago No. 2 yellow corn rose 5 3/4 cents. Kansas City milling quality white corn failed to trade all week due to lack of supply.

OATS AND BARLEY:

Oats markets came under new crop pressure but lack of offerings caused a mixed market. The Minneapolis market moved up 2 to 3 cents. Minneapolis best malting barley traded unchanged in spite of heavier receipts as traders showed concern over new crop. Minneapolis feed barley went up 8 cents. Portland western barley closed unchanged at \$2.78.

SORGHUM:

Yellow sorghum markets responded to higher cash yellow corn values and the market turned stronger. Kansas City No. 2 yellow sorghum advanced 15 cents per hundred pounds. Texas High Plains market was steady to 5 cents higher. The Los Angeles market tended to follow the Kansas City price trend.

OILSEEDS:

Oilseed markets moved mixed with soybeans stronger due to possible reductions in the Brazil production, orderly farm marketing and good crusher and export demand. No. 1 yellow soybeans rose 9 1/4 cents. Minneapolis flaxseed was firm and unchanged at \$6.50. Sunflower seed fell under pressure of expanded production and tight elevator space and the Minneapolis market dropped 10 cents per hundred pounds. price fell 20 cents.

AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the minute grain market news is now available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory lists 37 services in 24 states that are currently in operation.

WHEAT AND FEED GRAIN MARKETS MOSTLY STRONGER

HIGHLIGHTS:

Wheat and feed grain markets turned mostly stronger across the nation during the week ended June 19. Most of the strength stemmed from adverse weather conditions. Dry and unseasonally cool weather in northern states and Canada coupled with rain delays and damage to early hard red winter wheat areas furnished much of the market strength. Corn, sorghum, and soybean inspection for export are ahead of last season. Wheat inspections are lighter but new export sales indicate heavy movement later this year.

WHEAT:

China Mainland and to adverse weather conditions over much of the United States, Canada, and the other world wheat producing areas. Flour mill demand picked up, especially for high protein wheat which is expected to be in tight supply this year. Kansas City hard red winter ordinary protein wheat moved up 3 cents per bushel. The 13% protein wheat traded 7 cents higher. Chicago soft red winter wheat moved up 5 cents. Minneapolis dark northern spring 14% protein wheat traded 15 cents higher. Medium milling quality hard amber durum advanced 40 cents under good export demand. Portland soft white wheat held unchanged.

Wheat markets responded to new sales to

CORN:

Yellow corn markets reponded to orderly farm selling, expanded export inspections, increased feeding and processing interest and potentially larger export sales to move higher at all markets. Chicago No. 2 yellow corn traded up 2 cents per bushel. Kansas City white corn market is practically inoperative due to lack of offerings.

OATS AND BARLEY:

Lack of good quality offerings and poor crop prospects prompted buyers to bid higher for good quality oats and barley offerings. The Minneapolis market rose 13 to 15 cents per bushel. Minneapolis best malting barley traded unchanged to 10 cents higher and feed grade barley went up 12 cents. Stockton feed barley rose 5 cents.

SORGHUM:

Best interest for sorghum was for export as feeders are using mostly corn. Higher export prices firmed interior markets and the Kansas City multi-car price advanced 4 cents per hundred pounds. Los Angeles market rose 10 cents.

OILSEEDS:

Oilseed markets responded to expanded export movement, fairly heavy crush and orderly farm selling to move to higher price levels. Chicago No. 1 yellow soybeans ranged 9 cents higher. Minneapolis flaxseed held unchanged. Duluth sunflower seed advanced 10 cents per hundred pounds.

June 27, 1980

Page

WHEAT AND MOST FEED GRAIN PRICES MOVE HIGHER

HIGHLIGHTS:

meal and other feedstuffs.

Wheat and most feed grain prices closed higher across the nation during the week ended June 26. Most of the strength originated with reports of modification in the export embargo of grains to the Soviet Union. Wheat markets showed some new crop pressure at the close but farm selling remains orderly. Further crop deterioration was reported in the upper midwest as hot dry weather stressed crops were hit by hail storms. Oilseed markets found support in increased purchases by Mexico of soybean

WHEAT:

Wheat markets, after a weather delay in harvest, moved sharply higher on news that foreign subsidiaries of U.S. shippers could deliver foreign produced grain to the USSR. Some traders expected further modification in the embargo policy which could increase export movement of wheat and feed grains. Flour mills bought to replace grind but the approaching holiday tempered buying interest. Kansas City hard red winter wheat advanced 12 cents. Chicago soft red winter wheat moved up 27 cents. Minneapolis dark northern spring ordinary protein wheat moved up 10 cents. High protein wheat is expected to be in short supply this year and 15% dark northern spring wheat gained 18 cents. Portland soft white wheat traded 5 cents higher in a quiet market. Large carryover and good crop prospects coupled with slowed export and adequate farm selling tempered buying interest.

CORN: Yellow corn markets moved higher in spite of large stocks and good crop prospects as traders expected that trade with USSR might be expanded 4 cents. Kansas City white corn market remained dormat all week at a steady price due to lack of offerings. Some traders withdrew from the market when they could find no offers to sell.

OATS AND BARLEY:

market went up 7 to 10 cents.

Oats markets slipped lower in spite of poor crop prospects as nearby buying interest faded. Barley markets responded to reports of poor crop prospects and a pick up in export interest to move sharply higher. Minneapolis best malting barley traded 10 cents higher. Feed barley rose 10 cents at Minneapolis and the Stockton, California

SORGHUM:

Sorghum demand slowed as the Texas harvest got underway but higher cash corn values raised prices 12 cents at Kansas City and the Los Angeles market went up 14 cents per

OILSEEDS:

hundred pounds.

Expanded sales of soybean meal to Mexico strengthened processors and exporters bids as farm selling remained orderly. Chicago No. 1 yellow soybeans advanced 23 cents and Minneapolis flaxseed held unchanged all week. Ships arriving to load sunflower seed forced the sunflower market 50 cents higher at Duluth and 25 cents higher at Minneapolis.
